

AMENDMENTS TO THE CLAIMS

The following listing of claims replaces all prior versions of claims in the application.

1. (Original): A vinyl chloride resin composition, which is prepared by adding a vinyl chloride copolymer resin obtained by copolymerizing a vinyl monomer and a macromonomer having a polymer comprising an ethylenically unsaturated monomer containing a double bond in a main chain, to a vinyl chloride resin.
2. (Original): The vinyl chloride resin composition of Claim 1, wherein the content of the macromonomer component based on 100 parts by weight of the vinyl chloride resin is 0.1 to 5 parts by weight.
3. (Currently amended): The vinyl chloride resin composition of ~~any of~~ Claim 1 ~~[[or 2]]~~, wherein the macromonomer component in the vinyl chloride copolymer resin is 3 to 50 % by weight.
4. (Currently amended): A molded article comprising the vinyl chloride resin composition of ~~any of Claims 1 to 3~~ Claim 1.
5. (Original): The molded article of Claim 4, which is obtained by calendering.
6. (Original): The molded article of Claim 4, which is obtained by injection-molding.
7. (Original): The molded article of Claim 4, which is obtained by extrusion-molding.
